

Charging Trolley

for 30 Tablet/Notebook/
Smartphone

Protection and charging of mobile devices in shared environments

Techly Professional offers the complete solution for charging and storage of 30 tablets, notebooks and smartphones, ideal for responding to the need to store, protect and recharge multiple devices simultaneously in environments such as schools, training rooms, conference rooms.

It is a safe place to store and charge multiple mobile devices simultaneously.

The closed and ventilated storage area keeps the charging devices safe.

 **Safety:** sturdy painted metal cabinet with 4 locking keys for front doors and rear panels. It is the ideal solution to safely store up to 30 mobile devices during charging or at the end of their use.

 **Versatility and practicality:** thanks to its small size, it can hold up to 30 tablets / iPads, smartphones / iPhones or notebooks in very little space.

It has 3 shelves of 10 seats each, for a total of 30 plastic housings with cable management.

 **Extensive application:** given the widespread use of mobile devices such as notebooks, tablets, e-books, smartphones,...in schools, training, business, medicine... this solution is essential to manage all of them in a practical and safe way these mobile equipment.
