

# Safety Box

## for notebook and accessories

Suitable for interactive Whiteboard (IWB)

## Notebook safety box: a real safe

The wall mount Notebook Safety/Security Box by TECHLY PROFESSIONAL is the ideal solution to store and protect your Notebook in a school, or conference room environment or similar. This is the indispensable complement for interactive whiteboards (IWB).

-  **Convenience:** when the box is closed it safeguards your notebook and all your IWB accessories, when open, it becomes a practical support for using the notebook with your IWB. Power supply and connection cables can be easily stored in its lower compartment.
-  **Safety:** both compartments are equipped with a security key lock (model ICRLIM01 and ICRLIM06) or high-end tubular key (model ICRLIM02).

Additional security is guaranteed by the eyelets on the ICRLIM06 model which allows to integrate with a padlock the protection system of the upper compartment. Flap with double hinge and two pistons that guarantee total safety. Interior is equipped with protective pads and fixing band to protect your notebook.

-  **Versatility:** this product is compatible with any laptop with a screen size up to 19".
-  **Accessories:** power strip with 4 UNEL sockets with overload protection (sold separately under P/N I-CASE M10-4).
